M.Sc. Track Petroleum Engineering & Geosciences

MSc Reservoir Geology 12 MSc Characteristics •Reservoir Geology and Petroleum Engineering form together the MSc Track "Petroleum Engineering & Geosciences" •These two specializations have much of the coursework in common with about 25% specialized courses; they are essentially two different flavors of the same idea

Developments in Petroleum Science, 8

The primary aim of the book is to present the basic physics of reservoir engineering, using the simplest and most straightforward of mathematical techniques. It is only through having a complete understanding of the physics that the engineer can hope to appreciate and solve complex reservoir engineering problems in a practical manner.
